### 14 KILLED IN OHIO MISHAPS OVER WEEKEND

#### Train-Auto Collisions Kill 4 At Springfield, Two At Newark

(By Associated Press)

Four persons were killed Sunday in a train-automobile collision at Springfield, and at least 10 other traffic fatalities were recorded in Ohio over the weekend.

Victims in the Springfield accident were: Charles Calliso, 63, driver of the car; his wife, Mary, 66; their daughter, Mrs. Maxine Kadel, 33; her husband, John A. Kadel, 38, all of Springfield.

Coroner Austin Richards said they apparently died instantly when Calliso drove across an unguarded New York Central railroad crossing.

#### Two Killed At Newark

Another train-automobile collision caused two deaths at Newark Sunday. Raymond H. Clem, 36, and his sister, Miss Edith Mae Clem, 40, both of Route 2, Hebron, O., were killed when their car was struck by a Cincinnati-to-Pittsburgh Pennsylvania railroad passenger train at the Union street crossing.

#### Other fatalities:

TOLEDO—Mrs. Charlotte Farmer, 68, of Toledo, was injured fatally Sunday in an automobile collision in Ottawa Hills, a Toledo suburb.

MCCONNELLSVILLE—The impact of two automobiles colliding threw Miss Carol Louise Garner, 19, through the windshield of the car in which she was riding Sunday. She was killed instantly.

OTTAWA—An automobile wreck on State Route 115 Sunday killed Reynolds L. Westembarter, 20, and Robert E. Edwards, 22, both of Columbus Grove. The accident marked Putnam county's first traffic fatalities of 1947.

CELINA—An automobile-truck collision killed Paul Coats and Vernon Bader, 39, of Celina, on U. S. Highway 219 two and a half miles east of Coldwater Sunday. Dale Christman, 24, who was riding in the automobile with them, was injured critically.

### DAY FOR IRISH

#### 'Tis St. Patrick's Day and You Can Even Buy Green Sauerkraut

COLUMBUS, March 17—'Tis St. Patrick's day and the Irish are higher than a drum major's nose.

The skies may be blue. Pay no attention. This is the day for green, the symbol of the Emerald Isle.

Take the case of Gus Schmidt of Cincinnati's suburban Westwood. Schmidt isn't exactly an Irish name, but Mr. Schmidt, who runs a food shop, came up

with super Patrick-ism today. He is featuring green sauerkraut in his window and actually selling the stuff over the counter. Or, consider Prof. Leo Patrick McCann of Ohio State university. The good professor, bearing a name right fitting in Donaghy or County Cork, wore a green tie. It was the 29th annual wearing of that particular piece of neckwear.

Never mind if your hair is gray or your fingernails are tinted a darling shade of chili bean red—just keep your eyes on the green ties and suits.

There was more green in the state capital today than on an 18-hole golf course. Son of Erin, in the finest tradition, cake-walked down Broad street, top hats canted on their heads and canes whirling in their hands.

They followed the parade with attendance at solemn high mass. The friendly Son of St. Patrick will hold a banquet tonight.

In Cleveland, the Irish Civic association ignored the snowy, cold weather and planned a 24-hour downtown parade with 89-year-old Martin J. O'Donnell, still a broth of a boy, as grand marshal.

Quick McWatson, my shamrock and shillelagh.

TOLEDO—Mrs. Charlotte Farmer, 68, of Toledo, was injured fatally Sunday in an automobile collision in Ottawa Hills, a Toledo suburb.

### RIBBON 'CHUTES' USED TO DELIVER HEAVY CARGO

HOW THE AAF HAS DEVELOPED a method for delivering heavy cargo, by means of a ribbon parachute, is shown in these two photos. Above, a small ribbon extraction 'chute' is pulling a howitzer, weighing 2,240 pounds, from the rear door of a C-82 'packet' cargo compartment. At right, two 'chutes' are used to drop the big cannon to the ground. The demonstration was staged at Wright Field, O., where the howitzer was loaded on a ball-bearing conveyor and, when pulled free, the large 90-foot 'chute' opened, taking the heavy end of the burden. ### ACT TO CURB COAL STRIKE

#### Supreme Court Mandate To Be Issued 11 Days Ahead of Time

(By Associated Press)

WASHINGTON, March 17—The Supreme court ordered today that its mandate in the John L. Lewis case be issued on March 20—11 days ahead of customary time.

The government had asked the court to act immediately to enforce its decision against Lewis and the United Mine Workers.

The court's decision requires that within five days after its mandate is issued Lewis must withdraw a notice to the mine workers that the union's working contract with the government is ended.

If not, it will cost the United Mine Workers \$2,800,000.

When upholding the contempt convictions of Lewis and the UMW for disregarding a U. S. district court order against last fall's coal strike, the high court reduce a \$3,500,000 fine against the union to \$700,000.

It said, however, that the original amount of the fine should be collected if Lewis did not withdraw the order.

A \$10,000 fine against Lewis was upheld.

The effect of today's ruling is to bar the door against a new walkout on March 31.

Lewis ended last fall's strike by ordering the miners to work until March 31.

Under normal procedure, the Supreme court's mandate (order in connection with the contempt decision) would not have reached the lower court until March 31. That would have left five days during which the miners could have remained away from the pits without being subject to the full amount of the original fine.

Attorney General Tom C. Clark had requested early action by the high court in order to avert what he said was danger of another walkout of 400,000 miners.

Lewis and the union in a reply petition said the public interest would not be adversely affected if the Supreme court took its usual 25-day period for issuing the mandate.

On the other hand, they said refusal to allow the 25-day period would prejudice the rights of the union and Lewis.

The Lewis headquarters had no immediate comment on the court's action, but UMW officials indicated there was a remote chance that a statement might be issued later in the day.

### Mental Health Worse In Rural Area, Survey Shows

COLUMBUS, March 17—Researchers who have just finished the state's first intensive survey of mental sickness in a rural and semi-rural county have concluded that more rural than city people are struck with mental ills—from slight maladjustment to insanity.

Money marked for research in the 1945-6 legislative session went to make the study in Miami county, which was picked as typical of the small town and farm counties.

Miami county, just north of Dayton, has 52,600 persons living in three small cities, nine villages and in open farm country.

The researchers' major conclusions were that:

Farm life is healthful, mentally, for the small child.

Farm life is unhealthy, mentally and perhaps physically, as people stay there longer.

More insane people are in confinement from public agencies and kept without treatment in the open country than in cities.

Insanity probably does not run in families, nor do other mental diseases.

**Say Children Affected**  
One in five school children has poor mental health.

Boys develop mental ill health more than girls.

Married men have mental ill health more than single men.

School is unhealthy for the slow learner's personality.

Good mental health goes with more education, with city life, with white-collar and skilled employment and student life, in contrast with less education, rural life, unskilled labor and farm operation or labor.

The report detailing the Miami county conditions was written by Dr. A. R. Mangus, a professor of rural sociology at Ohio State university and John R. Seely, a social psychologist of the University of Chicago.

Also aiding in the research were the state's Division of Mental Hygiene, the OSU sociology section of rural economics and sociology department, and the Ohio Agricultural Experiment station.

The researchers went to Miami county last year and gathered up its draft board figures, its crime, delinquency and other court facts.

They tested third and sixth grade school children's intelligence and adjustment ratings.

**Recommendations**  
Considering Miami as typical of non-metropolitan counties of Ohio and other states, the research men concluded that its urgent need for mental health services was a fair sample of the need elsewhere.

Planning toward preventive work and cures, the report ends with these recommendations:

1—A child guidance center or a center for helping both children and adults should be established.

2—A school child study service should be created, either in each school district or centrally for all school systems in the county.

3—A marriage counseling service and family life programs must be built.

State Welfare Director Charles L. Sherwood said state money to help provide such services was available, but that so far there had been no specific planning for Miami county or other areas.

**Salem Legionnaires Attend Two Programs**

About 40 district Legionnaires and their wives attended the birthday dinner of the American Legion at East Liverpool, Saturday night when Third Division Commander Henry Moulter of Toronto spoke.

More than 150 county representatives and wives attended. Salem post members attended the banquet in Canton Sunday when Paul Griffith, national Legion commander, was the principal speaker and honoree.

From Salem were Mr. and Mrs. Chester Kridler, County Commander H. E. Zepernick, Vernon Rich and Milton Critchfield, and Mr. and Mrs. Merle Burson and Mr. Ramsey of Lisbon.

### Officers Are Chosen By Concert Group

The newly-formed Northern Columbiana County Concert association will be governed by a board of directors representing many phases of community life. It was announced today by Walter B. Null, association president.

These directors met recently with the officers in the First Presbyterian church to plan details of the forthcoming membership campaign, set up the organization policies and select the artists to be brought to Salem next fall and winter.

The officers include: Walter B. Null, president; Mrs. Gail A. Roose, vice president; Mrs. E. E. Dyball, general chairman; Charles F. Fox, secretary, and Mrs. Orein A. Naragon, treasurer.

Directors are Mrs. Vesta King, Mrs. Walter L. Strain, Charles McCorkhill, David E. Molyneux, Robert R. Engel, Miss Martha Krauss, Thomas E. Crothers, Donald C. Hammell, Mrs. George F. Jones, Clyde Tschantz of Lisbon and Mrs. C. Richard Roose of Leetonia.

Plans were discussed for the enrollment of members in the non-profit association organized for the purpose of assuring an annual series of at least three major concerts by the nation's leading professional musicians.

The Northern Columbiana County Community Concert association will be affiliated with similar organizations in some 500 other cities and towns throughout the United States and Canada, including Alliance, East Liverpool and Niles.

Some of these associations have enjoyed concerts by important orchestras, leading Metropolitan Opera singers and outstanding instrumental soloists for a quarter of a century. Others have been formed in more recent years. All find the organized audience plan under which the Northern Columbiana County association will be operated to be the only certain means of presenting widely known artists without financial risk locally, Null declared.

The latest season at Alliance, for example, included performances by the Buffalo Symphony orchestra, the Foxhole ballet, and Christopher Lynch, the Irish tenor who made his debut in this country with the Firestone radio hour.

Concerts of comparable attractiveness for Salem are the goal of the association here, Null said.

## The High Cost of People

Governor Herbert, submitting what looks like a fair job of budget "guesstimating" to the Ohio Assembly, bears down hard on a neglected fact about the high cost of government.

It isn't government that comes high, but popular demands for more and more public spending. Governor Herbert's recommendations add up to \$455,000,000, and of that huge amount less than 13 percent, or about \$59,000,000, is for government. The rest is for welfare and education.

This is what political scientists are talking about when they speak of the welfare state. It is a state in which the people's welfare becomes increasingly the responsibility of government. It is what taxpayers mean when they complain that heavy taxation is crushing them.

But taxpayers rarely say what they mean in this respect. They rant and rave about government, or perhaps the party in power, when they should be ranting and raving about the people who itch to unload every conceivable kind of responsibility on government—from the care and feeding of infants to the proper preparation of the dead for burial.

Government in Ohio and in the United States, as far as that's concerned is dirt-cheap. But people are more expensive.

## Keep Them Above Ground

Representatives Hartley (R) of New Jersey, a member of the House labor committee, is preparing a bill to outlaw the Communist party in the United States. The proposal has the approval of Secretary of Labor Schwellenbach and others high in the government but there are some who view it with misgivings, and for good reason. If Representative Hartley's bill becomes law, these difficulties will arise:

The 100,000 Communist party members, who draw their instructions from experts at riding punches, will begin placing new emphasis on infiltration tactics.

Communist party headquarters will change the sign on the door to read "Friends of American Democracy," or some such title. It may even devise stationary with a handclasp motif on the letterhead.

"Independent" candidates will become more frequent on the ballot.

Learned judges and government bureau heads will conduct academic discussions on the topic "What Is a Communist?" until they become as involved and abstruse as the medieval scholastics' arguments about how many angels can stand on a needle's point.

Secretary Schwellenbach says of the Communists: "Duplicitous, lies and secret methods are their weapons." If this is so, why drive them underground? Better have them on external rather than an internal infection.

## Line Forms On the Left

Five more countries, at least, are expected to line up behind Greece and Turkey for United States dollars to keep their governments from succumbing to the revolutionary mischief of Communist agitation. They are Iran, Syria, Lebanon, Hungary and Palestine. All of them, it will be noted, are oil producers, key element in all power politics in the Mediterranean basin.

According to estimates by congressmen, the total cost at the beginning of the Truman administration's new policy of fighting Communism with dollars may hit a billion dollars. That is a conservative estimate of initial cost; the cost over a five-year period might be many times that amount. It already has dawned on more Americans than ever saw the light before that British skill in diplomacy grew out of necessity as well as native ability. Great Britain in its palmy days never could afford the illusion that security could be bought. British statesmen had to balance international power with diplomacy, because they never had the illusion of unlimited wealth.

The United States has accepted responsibility for helping free peoples maintain their freedom. It has recognized its responsibility in this respect because it had no choice. For the same reasons of necessity which caused the United States to fight in two world wars to protect its own security, it now is being drawn inexorably into the latest issue over human rights. The line forms on the left for those who reject the doctrine of totalitarianism. It is the United States, not Soviet Russia, which is the hope of the world's liberals. There is nothing liberal about a police state and terrorism.

The question in American minds is not, in other words, about principle; American friendship for people who reject dictatorship and terror is automatic. But there is a very considerable question in American minds about procedure.

A national government devoted to the theory of inflated public spending as a cure-all is asking Congress and the people to accept a policy of dollar diplomacy. The United States, having used up 50-odd billion dollars in the name of wartime lend-lease, is now asking taxpayers to back a long-term program of peacetime give-away.

It is going to take more than dollars to keep up the good fight for freedom. The American taxpayer is patient; he will pay and pay and pay. But he also will think—and it will be a miracle if he does not think that dollar diplomacy in the Mediterranean basin or the Latin American banana republics is a poor substitute for an international policy based on something besides money.

MOST auspicious auguries for production, progress, and a definite and pleasant march upon advanced goals and objectives are found in this day's solar and lunar aspects. ## Treating One Type of Anemia

BY HERMAN N. BUNDESEN, M.D.  
The blood is of such vast importance that whenever anything goes wrong with it, the whole body suffers.

One of the most common disorders of the blood is anemia, which simply means a lessening of the amount of coloring matter in the blood, either with or without a decrease in the number of red cells which carry the coloring matter.

There are a good many different types of anemia but the one which affects by far the greatest number of people is called microcytic hypochromic anemia or simple anemia. In these cases the red cells are smaller than normal, and contain less coloring matter than they should.

This coloring matter is called hemoglobin and under certain conditions there is an increased need for it, as after bleeding or during pregnancy or periods of rapid growth.

Thus, it is at such times as these that this type of anemia is most likely to occur. There is, however,

another reason for it. Hemoglobin contains iron and if for any reason, the body is not supplied with enough of this substance, anemia will result.

The body may not get enough iron because foods which supply iron are not eaten in large enough quantities. Then, too, the iron may not be taken up from the intestines, or both of these things may occur at once.

In treating microcytic hypochromic anemia it is obvious that the first and most important thing to do is to try and find out why the anemia has occurred and correct this factor. Long continued blood loss is perhaps its most common cause and this in turn may be due to some type of tumor in the stomach or intestine which has not been detected.

**Average American Diet**  
According to Drs. Bertha L. Paegel and Joseph F. Ross of Boston, the average American diet does not provide enough iron to make up for any moderate loss of blood.

The average diet, they think, supplies only about 12 to 15 milligrams of iron a day. A milligram equals about 1/25 of the weight of an average-size grain of rice. A poor diet may provide only from one-half to one-fourth this amount. Since only about a tenth to two-fifths of this iron is absorbed even in persons with anemia the body is actually supplied at best with only five to six milligrams of iron from the foods eaten.

Thus in order to overcome the anemia it is necessary to give iron in the form of some preparation which the doctor will prescribe. These physicians believe that iron salts are effective when given by mouth if the dose is large enough. What are known as ferrous salts seem to be preferred because

smaller doses can be employed. It is well known that the iron salts may cause an upset stomach in some cases. The smaller the dose the less likely it is that such upsets will occur.

Anemia is such a threat to health that when it develops no time should be lost in consulting the doctor. He will make a thorough search for causes so that treatment with the proper iron-containing substance can be started at once.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

LEETONIA SCHOOL  
ROUTES CHECKED

Board Members Aid Survey For Better Bus Pick-Ups

WASHINGTONVILLE, March 17—Two members of the local school board who constitute the bus committee will ride over the Leetonia school district's five bus routes in order to determine what shall be done about re-organizing the out-of-balance pick-up service.

The discussion of this problem, in addition to picking the bills and taking care of other routine matters, consumed most of the board's time at its monthly meeting Thursday evening.

Leetonia's five busses, driven by Frank Stouffer of Washingtonville, "Bim" Walters, L. Kibler, Jack Anglemeyer and Carl Varian of Leetonia cover a total distance of 187.4 miles each school day to gather up and distribute 376 rural students attending school in Washingtonville and Leetonia.

Since the pick-up of students is not too evenly distributed the board will study the routes with the idea in mind of re-routing the busses. The changes will be recommended at the next meeting.

Supt. P. R. Narragon reports the Leetonia school district will benefit to the extent of about \$35,000 if the proposed Cramer-Daniels bill becomes state law.

Conservative old John Bull, taking a leaf from Hollywood's well-worn book, is now photographing his cutest starlets in familiar American pin-up poses and costumes. ### ★ WE, THE WOMEN

By RUTH MILLETT

One of the least appealing things about working women is that so many of them carry over into their personal lives the independent attitude that is a necessary part of their working lives. This is no help in friendships.

To make her point the woman who voiced that complaint told this story:

Wanting very much to help a working friend of theirs who had to leave her job to undergo a serious operation she and her husband persuaded the friend to stay with them during her weeks of convalescence.

They figured they could considerably cut down on the cost of her illness by doing it for her.

She accepted their invitation. Determined not to be indebted to them, she bought them several expensive gifts as soon as she was back at work.

**BETTER TO RELAX**

Said the friend who tried to help her: "Those gifts just made us feel silly. Why, we didn't help her at all. With the money she spent 'pay-

ing us back' for an act of friendship, she could have gone to a nursing home to recuperate from her operation. But like so many working women, she has the deep-rooted idea that she must never be indebted to anyone."

It is just as important in any friendship to be able to accept graciously as to give graciously. Working women shouldn't overlook that. Not if they want to have warm and lasting friendships. Independence in the business world is good. In the social world it is better to relax a little.

## What To Do For That Sluggish, Down-and-Out Feeling

Remember the time when you could eat like a horse, bubbled-over with energy, felt happy as a lark? Was it not because you liked to eat—didn't know what digestion was, felt strong as an ox? As age advances the "old stomach and the ever-changing blood" need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have in positive proof shown that SSS Tonic is amazingly effective in building up low blood strength, in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

That vitamin B<sub>2</sub> promotes growth so essential to the good health and general welfare of children? That it is a necessary requirement for healthy eyesight?—Yes this Vitamin is very important, that's why growing boys and girls should eat plenty of KEYSTONE BREAD enriched with EXTRA quantities of this healthful element.

Anything Makes a Home in Freezing Warsaw

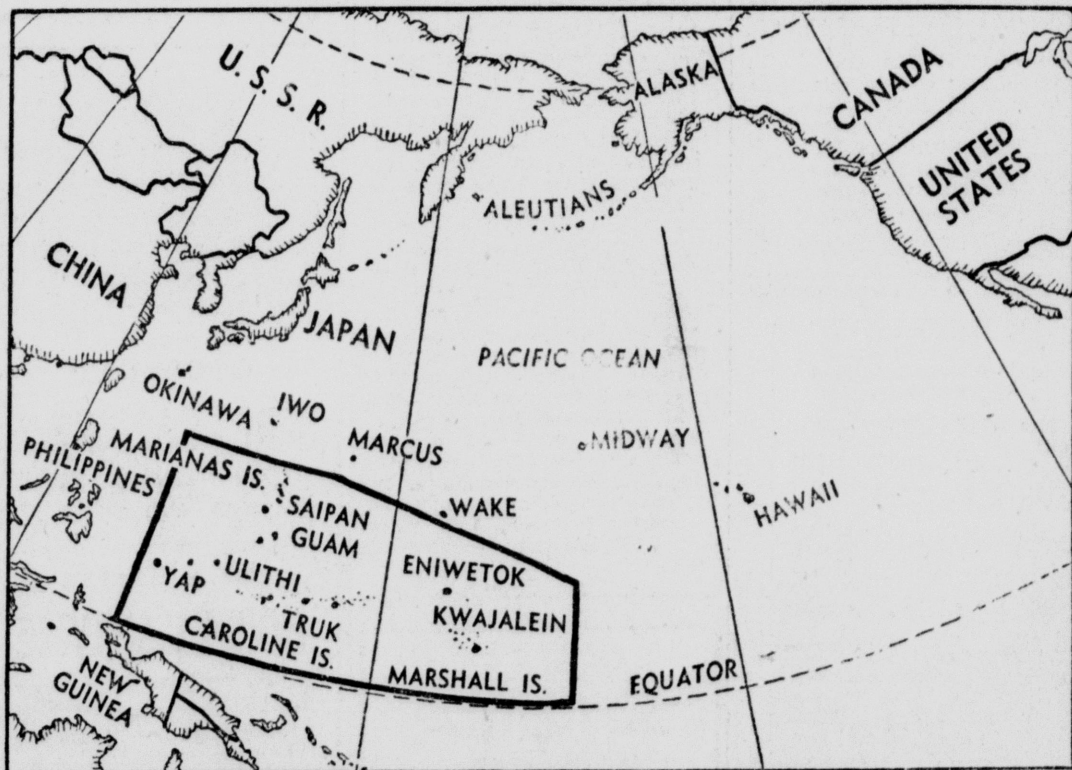

Freezing in Europe's worst winter in many years, Warsaw, first great capital to feel the brutal destructiveness of the German war machine, is still a city of wreckage and rubble-grubbing people who resort to every expedient to support life. Like the old woman seen above, many have managed to build some kind of a shelter out of odds and ends in one of the bombed-out buildings. Smoke from her improvised chimney indicates she's luckier than most, for there is very little fuel.

News Sports Editor

### DEPARTMENT OF CONGRATULATIONS

Whether or not the Columbiana Clippers win the state Class B title, they are eligible right now for congratulations on their amazing season's record and tournament progress. They have won 23 of 24 games.

It's a real feather in Coach Johnny Cabas' cap to have tutored two teams into the state finals in three years at Columbiana. And besides that, Cabas had a great season last year, losing only one game and one other in tournament finals.

The Clippers this season are a great "team" aggregation. There are no head and shoulder stars, as were on the 1944-45 Columbiana outfit. The unit this season—like the once-beaten football team Cabas turned out—is truly a unit and one that is dangerous to the opposition from every position.

When the chips are down, Columbiana scoring can come from any of the five men.

Needless to say this district will be rooting for the Clippers to cop the Class B crown.

### DEPARTMENT OF INFORMATION

For those district fans who will spend the major portion of this week in Columbus, the following facts may be interesting and helpful:

Drawings for the Class A and B games will be held at 10:30 a. m. today in Commissioner H. W. Emswiler's office in Columbus.

The coliseum will house both A and B games. One game in each class will be played each of the three days, the B games set for 2:30 each afternoon and the A games for 8 each night.

The coliseum will seat 7,274 persons. Seats will be 75 cents, general admission and \$1.50, reserved. Each participating school will receive an advance allotment in the amount it desires and other tickets will go on sale the day of the game.

"A" game tickets will go on sale at 3 p. m. each day and "B" game tickets at 10 a. m. each day at the coliseum ticket windows.

Officials for the "B" games will be Jim Volgesang of Lima and Harold Rolph of Ironton. "A" officials are Stanton Jones of Columbus and Ed Sherman of New Concord.

### DEPARTMENT OF CONJECTURE

Columbiana county has never, since tournaments began in 1923, had a basketball championship team. This year the chances appear better than ever, with Columbiana in the "B" finals and powerful East Liverpool in the "A" select group.

Both Columbiana and East Liverpool appear on the surface to be the favorites in their respective groups. Both have the best records and apparently have played as tough a schedule as any of the other participants.

Should this county come through with two state titles, it probably would be one of oddities of all time.

Besides that, it seems apparent that the best basketball in Ohio was centered hereabouts this year—for between Salem, Columbiana and East Liverpool, the county notched six places on the Associated Press All-Ohio squad and seven on the International News Service All-Ohio selection.

It gives Columbiana county a name that no other Ohio county can boast this year and it definitely shows there's nothing second rate about the competition hereabouts.

### ODDS AND ENDS

Rich Berryman, captain of the Columbiana team, probably is the only county man ever to participate in two high school state finals. He was also a member of the 1944-

# Victory Advances Columbiana to Columbus

## Thrilling 35-34 Margin Over Lowellville Sends Clipper Five To Finals

Columbiana's Clippers earned their way into the Ohio Class B state finals at Columbus Saturday night with a thrilling 35-34 victory over Lowellville before 3,993 paid fans at Kent State university's Willis gymnasium.

It marks the second time in three seasons that Columbiana has been represented in the Class B basketball finals, both times under the tutelage of Coach Johnny Cabas. The 1945 Clipper five advanced to the final game at Springfield.

The Clippers are now among a quartet that includes Phillipsburg, New Knoxville and Corning, which will vie for the state title Thursday, Friday and Saturday afternoons in the mammoth Fairgrounds coliseum in Columbus.

Columbiana's victory Saturday was the result of a courageous uphill fight against a determined Lowellville five, coached by Paul Johnson, and a disturbing inability to hit the hoop on their own part.

Usually an exceptionally accurate shooting club, the Clippers found themselves in a definite "off" night soon after the game started, but managed, through sheer perseverance and excellent defensive work to overcome the seriously bidding Rocket club.

The Clippers were completely off form in the opening period, hitting only one basket—late in the period—in 17 attempts from the floor. In the second, with the shooting eye sharpened a bit, the Clippers meshed six of 16 attempts and closed an 8-3 first quarter margin to 19-18, with the Rockets still in front, by halftime.

At one point, with all but a minute of the first frame gone, Columbiana trailed by an 8-0 margin. Lanky Don Esenwein, who did a beautiful job on Jo-Jo Stephenson, Lowellville's 6-4 center, made all three of the initial Clipper points.

At the start of the second half it was Lee Thomas, All-Ohio set shot artist, who put the Clippers in the lead for the first time on a beautiful shot from the center of the floor. That made it 20-19. Columbiana never trailed after that.

He further increased the margin with a rapid-fire one-handed toss from the foul circle to make it 22-18 before Lowellville's Larry Grist, the surprise star of the night, sunk a foul.

Wayne Urschler, whose terrific claw-like defensive job was a Clipper standard, cashed in for a basket and foul as Columbiana began its domination of the game until mid-way in the fourth period.

At the close of the third, Columbiana led by a slim one-point margin, 25-24, but seemed to have the upper hand. Consistently in the final half, the tightened Clipper defense managed to steal the ball from the Rockets before they could get it down the floor. Capt. Rich Berryman, Urschler and Dick Perkins led this important weapon.

Early in the fourth Columbiana put the game on ice, although no one realized the "iced" feature until the final buzzer sounded.

Dick Perkins did the main chores in the final all by himself, hitting three perfect set shots to move the scoreboard to 31-28 as Lowellville's matching powers diminished momentarily. Urschler and Berryman hit baskets just before the four-minute time out to make the Clipper total and move the margin to 35-28.

With four minutes left, Columbiana's offense was forgotten most of the way and the majority of the remaining time the Clippers simply stalled with a magnificent display of back-court ball-handling which had Lowellville frantic.

Grist hit a basket, Stephenson followed with two fouls shots as the Clippers still held a three-point margin with less than two minutes to go. With just 30 seconds left, Stephenson took a rebound and made a basket and it was 35-34.

The game ended as Esenwein and Stephenson jumped the ball near the Clipper basket.

Columbiana's team play spelled defeat for Lowellville, whose bursers offensively were centered in Grist. Stephenson was held to a mere two field goals but cashed in on six of eight foul tosses.

Columbiana made only five of nine fouls while Lowellville considerably under Clipper power from the floor, meshed 12 of 17 attempts.

The Clipper floor percentage was one of the lowest since the Salem game early in the season. They hit only 15 of 63 tries for 24 per cent. Lowellville was worse, hitting 19 per cent or 11 baskets in 57 tosses.

## Training Camp Notes

(By Associated Press)

A spring training victory or home run doesn't mean a thing when baseball's opening day rolls around but Pittsburgh fans were keeping their fingers crossed today after Hank Greenberg's smashing performance against the Boston Braves yesterday.

Ordinarily Hankus-Pankus is no ball of fire in the Grapefruit league and that's why his two homers and single against the Braves was considered highly significant. The big slugger likes to take his time rounding into condition for the league games which count.

But this is a different year for Hank—maybe the end of the trail for the handsome cloutier who collected virtually all power-hitting honors in his long term with Detroit's Tigers. And Hank, who was deeply hurt and embittered by his sudden sale to Pittsburgh, wants to show the Tigers as well as the fans that he still wields a big stick.

Up to Sunday, Greenberg had made only three singles in 16 trips to the plate.

Other training camp news: ST. PETERSBURG, FLA.—The St. Louis Cardinals have decided on a ring as the 1946 World Series award they have coming from Baseball Commissioner A. B. (Happy) Chandler. Funds from the commission's extra pay for the emblems selected each year by members of the champion team.

SARASOTA, FLA.—Probably to ease their demotions in the near future, most of the Boston Red Sox rookie infielders will play for the Louisville farm team today when Joe Cronin takes his champions to Bradenton to play Harry Leibold's Colonels. Cronin planned to use Otis Clark, Randy Heflin and Al Widmar, all ex-colonels, on the mound.

FORT LAUDERDALE, FLA.—Still smarting from their 13-1 shellacking by the Pirates, the Boston Braves will attempt to regain their batting eyes at the expense of their Milwaukee farmhands today. South-law Lou Test from Seattle and Jim Wallace are ticketed for mound duty.

ST. PETERSBURG, FLA.—With their Grapefruit league record evened at three wins in six starts with a 3-3 victory over the New York Yanks, the Detroit Tigers called on Hal Newhouse to pitch today in their second meeting with the Yankees.

SAN DIEGO — Pitcher Orval Grove says the Chicago White Sox have the "best looking bunch of rockies I've ever seen at a training camp, especially the pitchers. If Sebrinan, Gillespie, Harnett and Evans keep going as they have, the regular pitchers will have a tough time making the club."

**Trade Rumors Circulate As Keltner Is Benched**

BAKERSFIELD, Cal., March 17.—Trade rumors were flying again today in the camp of the Cleveland Indians after Manager Lou Boudreau benched Third Baseman Ken Keltner to give Eddie Bockman a shot at the hot corner.

Boudreau explained the move by saying "Keltner has earned a rest and it's time I had a look at Bockman's third basing," but there was speculation that Keltner will figure in a trade to obtain pitching and outfield help.

Keltner himself does not want to be traded. He's content and is confident he'll have a good year. Bob Feller drew an overflow throng of 23,550 fans in Los Angeles yesterday but was rapped for five runs and eight hits, including a three-run homer by Andy Paiko, as the Chicago Cubs trounced the Tribbe 8 to 1.

## Salem Saxons Win Basketball Title

The Salem Junior Saxons copped the Saxon basketball league championship Saturday night when they defeated New Castle, eastern division champs, 40-39 in a close contest in the Memorial building. It was the second of a three game title series. Salem won the first tilt on March 1.

Rudy Schuster collected 14 points to pace the winners, with Al Linder copping 10. Miller and J. Binder led New Castle.

Salem led throughout the game, although New Castle was a steady threat all the way. They outscored the locals 20-14 during the second half, but the Salem lead was too much to overcome.

## Dismissal of Red Sympathizer Upheld

WASHINGTON, March 17—The Supreme court today in effect upheld the right of the civil service commission to fire a government employee on grounds he is a Communist sympathizer.

The court refused to review protests by Morton Friedman, who was ousted from a job with the War Manpower commission by order of the Civil Service commission. The refusal leaves in effect rulings by lower federal courts which upheld the commission's order.

Friedman is appealing to the Supreme court said he was fired as a result of a "witch hunt" which he stated "is now proceeding in the government service and elsewhere."

## Three Women to Divide Radio Contest Prizes

LOCK HAVEN, Pa., March 17—Three young housewives wrestled with a very money-important problem today: How to divvy up a billiard table and 50 free cue lessons they won in a radio contest, plus other prizes totaling \$17,500.

The women—Mrs. William H. McCormick, her sister, Mrs. William H. Harmon, and a neighbor, Mrs. A. B. Timms, all of Lock Haven—won the prizes by correctly identifying "Mrs. Hush" of NBC's Truth or Consequences program as Clara Bow, the former screen star.

All had agreed to divide the spoils if their guess was the winner. Mrs. McCormick's contest letter was selected.

In addition to the billiard table and lessons, the three women must split such items as an airplane, an automobile, a steam heating unit, a silver fox fur coat, a weekend in New York, a week's vacation at Sun Valley (Idaho), a year's supply of frozen foods, free maid service for a year, a completely equipped trailer, one coat of paint (inside and outside) for one house, a refrigerator—etc., etc.
